PROFESSIONAL SUMMARY

3rd year B.E CSE (Cyber Security) student with a strong foundation in networking, actively seeking a Network Engineer or Network Architect internship. Completed CCNA coursework with hands-on knowledge of TCP/IP, routing, switching, VLANs, subnetting, and network security fundamentals. Proficient with Cisco Packet Tracer and Wireshark. Eager to apply networking skills in a real-world environment.

TECHNICAL SKILLS

Protocols	TCP/IP, OSI Model, DNS, DHCP, HTTP/S, FTP, SSH, OSPF, EIGRP, BGP, STP
Network Tools	Cisco Packet Tracer, Wireshark, Nmap, PuTTY, GNS3 (basic)
Concepts	Routing & Switching, VLANs, Subnetting, NAT/PAT, ACLs, WAN/LAN Design, Network Security, IP Addressing
Training	CCNA – Course Completed (Certification Pending)
Programming	Python (basic scripting), C
OS	Linux (Kali, Ubuntu), Windows

EDUCATION

2024 – Present	B.E-CSE (Cyber Security)	J.N.N Institute of Engineering (Anna University)	7.57 CGPA
2022 – 2024	Intermediate	Ravindra Bharathi Junior College	76.7%
2022	10th Class	Ravindra Bharathi E.M High School	62%

ACADEMIC PROJECTS

Metasploitable2 Penetration Testing

- Performed full-scope penetration test: network scanning, enumeration, service discovery; exploited VSFTPD 2.3.4 backdoor via Metasploit to gain root access.
- Documented methodology, vulnerabilities, exploitation steps, and remediation in a structured report.
- Tools: Kali Linux, Nmap, Enum4linux, Telnet, Metasploit Framework

CERTIFICATIONS

Pre Security Learning Path	TryHackMe	2026
Introduction to Cyber Security	Cisco	2025
Cyber Security Certification	Skill India – Tech Mahindra	2025
